Higher Secondary Education
(+2) - Vikash Residential school
Bhawanipatna , Odisha , 766001

Bachelor of Technology, Computer Science , LNCT University, Bhopal, Madhya Pradesh - Pursuing

LANGUAGES

- English
- Hindi

SHUBHAM IDNANI

FULL STACK WEB DEVELOPER

ABOUT

Full Stack Web Developer specializing in the **MERN** stack, with hands-on experience building end-to-end scalable web applications using MongoDB, Express.js, React.js, Node.js and modern frameworks. Skilled in UI development, RESTful APIs, database integration, and backend development. Currently expanding expertise in Generative AI to build scalable and intelligent web experiences.

PROJECTS

Moodify

- Built an end-to-end MERN application using MongoDB, Express.js, React.js, and Node.js with AI-based mood detection.
- Developed mood-based music recommendations having 4 types of mood detection(happy , sad , excited , neutral), music playback, and custom playlist functionality with responsive React.js interfaces , 3d animations using three.js.
- Implemented 4 RESTful APIs, backend logic, and MongoDB integration to connect mood detection, music data, and user interactions.

Mangalams

Frontend E-Commerce Web Application

- Designed and developed a responsive gifting platform frontend using React.js, JavaScript, HTML5, and CSS3.
- Focused on responsive UI/UX, reusable components, visual design, and smooth user experience.
- To be upgraded to an end to end deployable web application.

EXPERIENCE & ACTIVITIES

STATE-LEVEL HACKATHON
Hackathon Participant

- Participated in a state-level hackathon, collaborating with a team to develop and present a technical solution.
- Strengthened teamwork, communication, problem-solving, and collaborative development skills.
- Worked under time constraints while contributing to ideation, implementation, and presentation.
